Management Director

December 28th, 2022

Attention Boscawen Businesses and Residents,

The State of New Hampshire Department of Homeland Security and Emergency Management has requested that we submit an Initial Damage Assessment in regard to any damages incurred by the storm that came through on 12/23. *This is a survey only*, at this point, and will be used to determine whether or not the storm damage meets or exceeds a certain threshold.

If you are a property owner or renter and your property was damaged due to the storm, please review the definitions of damage to see what may apply.

- A. Affected: Dwellings with minimal damage to the structure/ or contents and the home is habitable without repairs
- B. Minor: Structure is damaged and uninhabitable, but may be made habitable in a short period of time with home repairs.
- C. Major: Structure has sustained structural or significant damage, and is uninhabitable and requires extensive repairs.
- D. Destroyed: Structure is a total loss or damaged to such an extent that repairs are not economically feasible.
- E. Inaccessible: A property assessment of a property is not possible at this time due to inaccessibility issues (i.e. downed trees, washed out roads, etc)
- F. Small Business Administration: Businesses that sustained economic loss and/ or physical damage to their property. Some businesses may be counted in both categories.

For private property owners, we'll also need to know if you are the owner, renter, or secondary party, and whether you are insured or not.

Please have this information to the Town via email at jkillary@boscawennh.gov, or by leaving a message with Lt. Killary at 603-753-9124 x2203. **The Town would like to have the information by midnight December 29th**, but you may provide the information after the date and time if you are unable to meet the deadline.

Thank you very much.

Lieutenant Jason S. Killary
Emergency Management
