Dear Selectmen:

The New Hampshire Division of Forests and Lands is planning a sanitation harvest of red pine timber from 31 acres of Nursery State Forest in the town of Boscawen, New Hampshire. Attached is a location map of the planned harvest for your reference.

We are in the early stages of planning this harvest which we do not anticipate offering for public bidding before summer of 2020. At the time of the sale you will be notified as to the volume sold and the successful bidder who will be responsible for payment of the timber tax.

Access to this timber sale will be from Stirrup Iron Road. As this harvest operation will require the transportation of forest products on town roads, Dean A. Hollins, Public Works director, will be notified.

If you have any questions or comments please contact the forester in charge of this project, Howard Lewis, at (603) 796-2323 by January 30, 2020.

This letter is in compliance with RSA 541-A:39, Notice to Municipalities. We would appreciate it if you would post this letter in a public place, thank you.

Sincerely,

William Guinn, Administrator
Forest Management Bureau
