The Town of Boscawen has adopted a town wide alert system. This program is through ONSOLVE and is called Code Red. This system is used by the State of New Hampshire and many of the cities and towns in NH. We now have the ability to send to those residents who sign up, alerts for things happening in town and we can even isolate by street or specific area. Examples like; wires down on Queen Street, a fire on Water St. or many other types of alerts/warnings and could be isolated to those residents signed up in those particular areas or could be sent out to everyone signed up depending on your preference.

This is no additional cost to any resident who signs up and is **STRICTLY** voluntary. If you do not wish to receive the alerts you do not have to. If at any time you see something that should be reported as an emergency or that you feel may warrant alerting your neighbors or fellow residents you can notify the Fire or Police Depts., myself at (603) 333-5377 or the Town Office and we will work to get it posted.

To sign up please create an account use this link.

Please be mindful that this is a new system for us and we will work to make it as effective and not annoying as possible. We will not just post things and inundate you with texts or emails.

Any questions please reach out to me at (603) 333-5377 or by email at mvarney@townofboscawen.org.

Thank you,

Mark E. Varney, EMD
